

Prodacapo Balanced Scorecard

Faster, easier and more powerful performance management

Prodacapo Balanced Scorecard is an easy-to-use software tool that enables you to manage and measure your organization's performance. It helps your organization to communicate strategy at all levels, establish responsibility for achievements and focus on actions critical for success.

Prodacapo Balanced Scorecard is more than just a measurement system – it is a management system too. With Prodacapo Balanced Scorecard you can communicate, manage and follow up on all actions, ensuring that the organization's strategic objectives are attained.

Fast and flexible Balanced Scorecard creation

- Easy-to-use drag-and-drop functionality for rapid scorecard creation at all organizational levels
- Easily customized to suit popular scorecard frameworks similar to Balanced Scorecard
- Complete scalability, from stand-alone systems to global installations
- An overall scorecard can be broken down into an unlimited number of underlying scorecards at different levels in the organization – and can include common measures and action plans

Ease-of-use

- Designed to be easy and intuitive to work with for all users, no matter what their position in your organization
- The terminology used in the interface can be customized to match your in-house vocabulary

The solution is certified by the Balanced Scorecard Collaborative, which means that the founders of the Balanced Scorecard methodology have approved it.

Prodacapo Balanced Scorecard is fully web-enabled, with intuitive dashboards, graphs and reports. This means that users at all levels can easily access and understand Balanced Scorecard information and take action based on it.

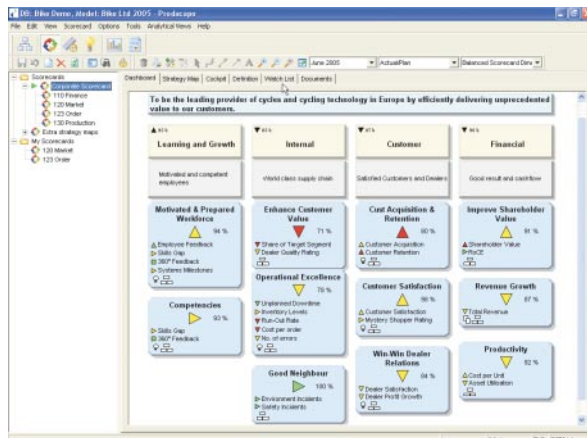

The solution is flexible so as to suit your needs and easy to integrate with your existing IT systems, allowing automatic updates of your scorecard data.

Web-enabled

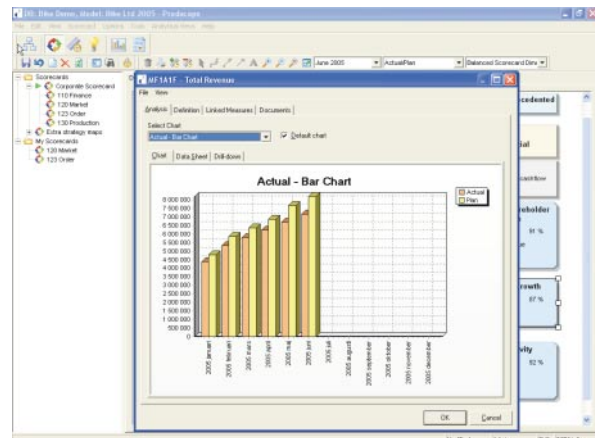

- Easy access to Prodacapo Balanced Scorecard via standard web browsers
- Users can update measures, actions and comments via the web
- Easy to integrate into intranets and portals

Make things happen to realize your strategy

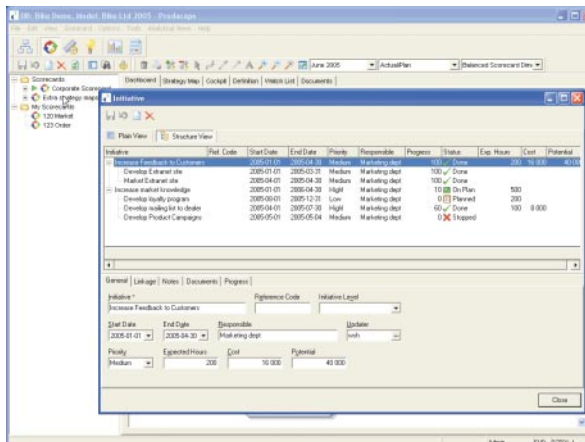

- Powerful support for communication, management and follow up on actions needed to implement your strategy
- Actions can be linked to measures, objectives or scorecards
- All information on action plans, progress according to plan, people responsible, and finalizing date can be handled in the system
- Reports on actions can be run in all dimensions

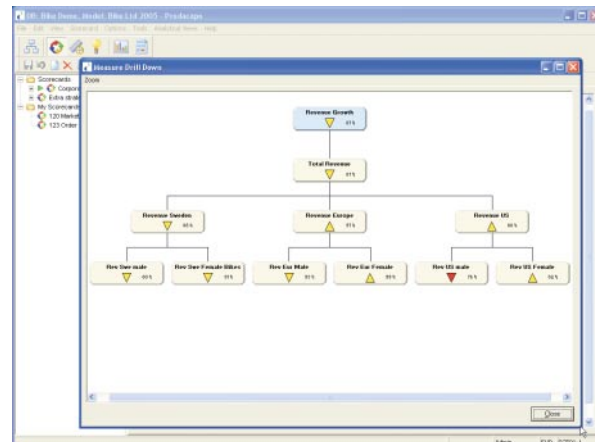

Easy-to-understand and highly visual dashboard displays – with drill-down options for more details – helps your organization communicate and follow up on your strategy.

Graphs make it easy to follow-up and monitor progress towards goals.

Prodacapo Balanced Scorecard enables you to manage, measure and follow up on the actions needed to fulfill the strategy.

Measure drill-down lets users analyze underlying measures in more detail.

Monitor progress towards goals

- Easy-to-understand, highly visual dashboard displays presenting both current performance levels and trends in the same screen – with drill-down options for more details
- Intuitive graphs, tables and reports with customization options
- Watch lists designed to focus particular attention on certain areas
- Powerful built-in reporting and analysis options
- Optional add-in product, Prodacapo Power Analytics, offers OLAP drill-down and slice-and-dice functionality for multi-dimensional analysis of vast quantities of data

E-mail alerts

- E-mail notification of underperformance and missing data/action plans

Seamless integration with existing IT systems

- Readily integrated with your existing IT systems and databases to enable automatic updating of performance data in your scorecard

Certification

- Certified by the Balanced Scorecard Collaborative

Robust security

- Access privileges can be set for different users and groups

Modern technology

- Based upon n-tier client server technology and leading database engines
